# TESSERA Roll+ Mobile App: Revolutionizing Your Daily Experience with Seamless Configurations and Interactions!

# 3 in 1 Mod

## BASIC VERSION

- **Unique, smooth, easy opening system without any assistance.**
- **Unique design – upgrade anytime.** Easy upgrade from **Basic to Spring or Electric version** by **JUST** adding the kit of your preference. Easy downgrade whenever needed.
- **Basic version, is the base of all versions.** Distributors and wholesalers can stock **1 SKU** (basic version) and add the **E-Kit** or **S-Kit** whenever needed, thus decreasing the number of SKUs by almost **2 times**.

## BASIC VERSION + S-KIT ⚙️

- **Upgrade from Basic to Spring version** by simply adding the **S-Kit**.
- **Spring-assisted opening** for an even easier opening.

## BASIC VERSION + E-KIT ⚡

- **Upgrade from the Basic version** to the AI-Powered version using the **E-Kit**.
- Put the **power of AI** at your fingertips with a host of benefits such as:
  - **Open and close** your roll top cover using the specially designed **key fob**, **one-touch** rear slat, the unique **Tessera Roll+ App** or simply using **voice commands**.
  - **Forgot** your roll top cover open? Tessera Roll+ App will **remind you to close it**.
  - **Maintenance** notifications.
- **Use the power of AI** for your convenience, ease of use, and infinite possibilities of customization.
- **Proximity** safety sensors.
- **No need** for motor calibration.

In addition to a host of other features and benefits that would amaze and surprise anyone that they could be incorporated in a roll-top cover.

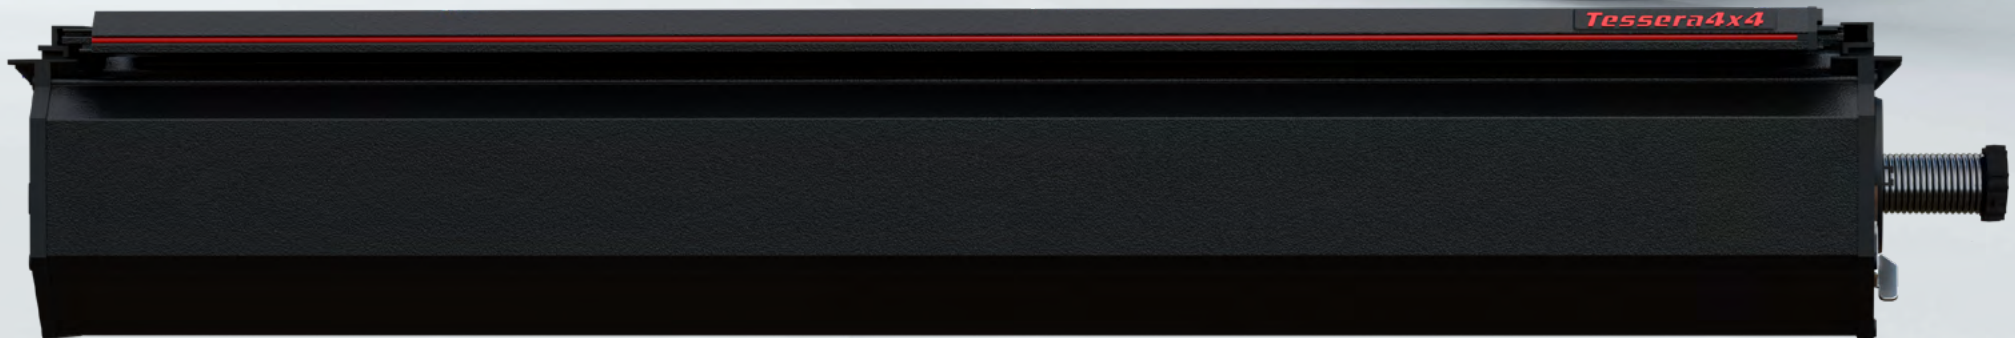

# ular Design

**BASIC VERSION**

**BASIC VERSION + S-KIT**

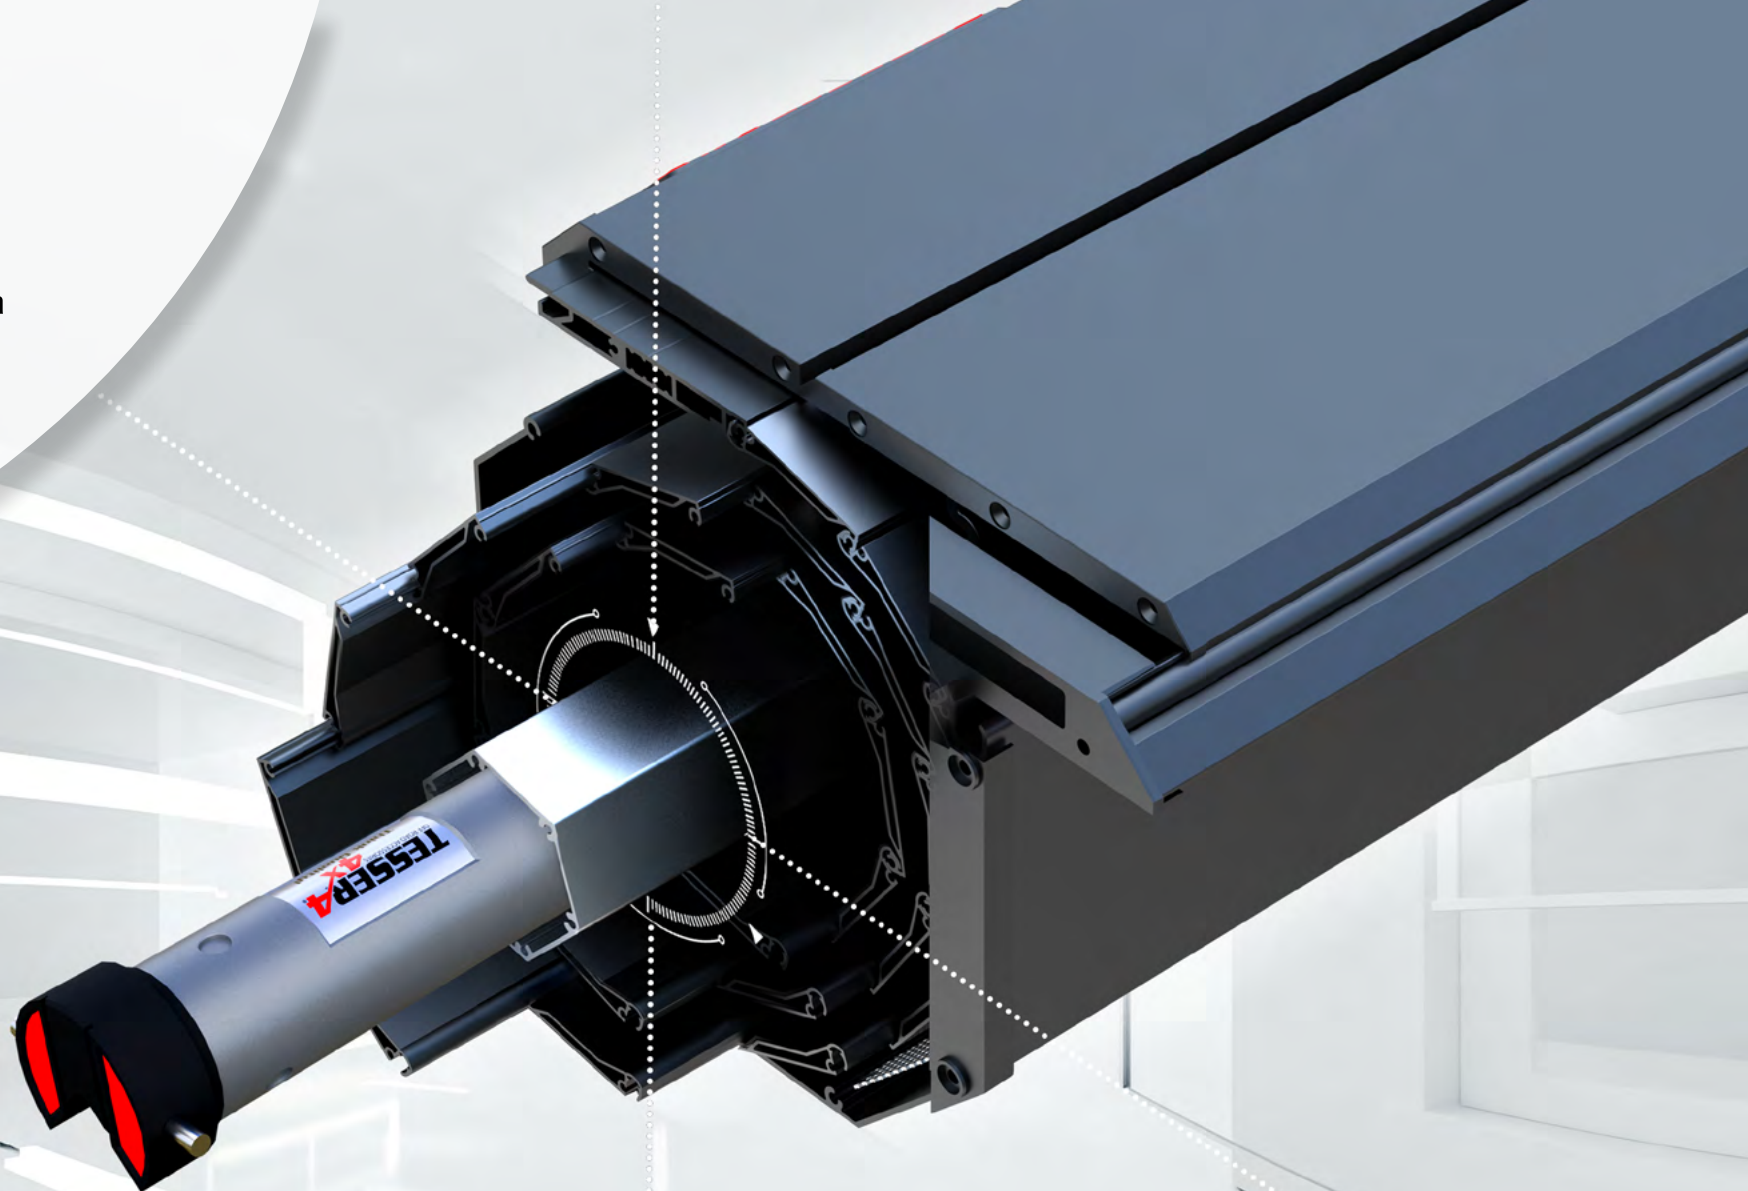

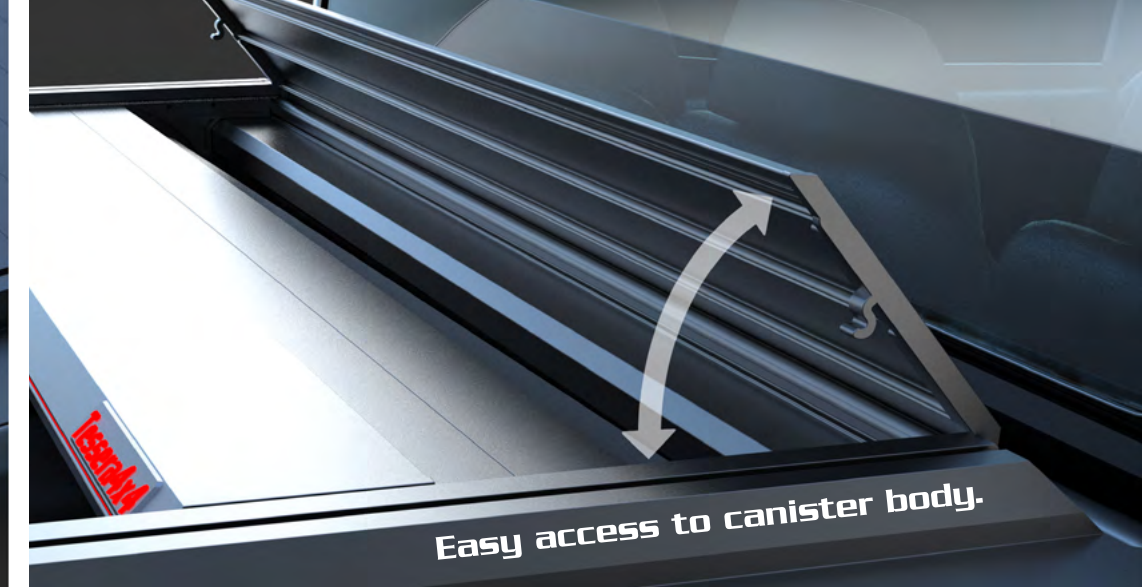

**BASIC VERSION + E-KIT**

**Sealed & Water  
Proof resistant  
electric motor**

**Located & protected  
inside the aluminium  
(heavy duty)  
central shaft.**

### **Red LED light bar**

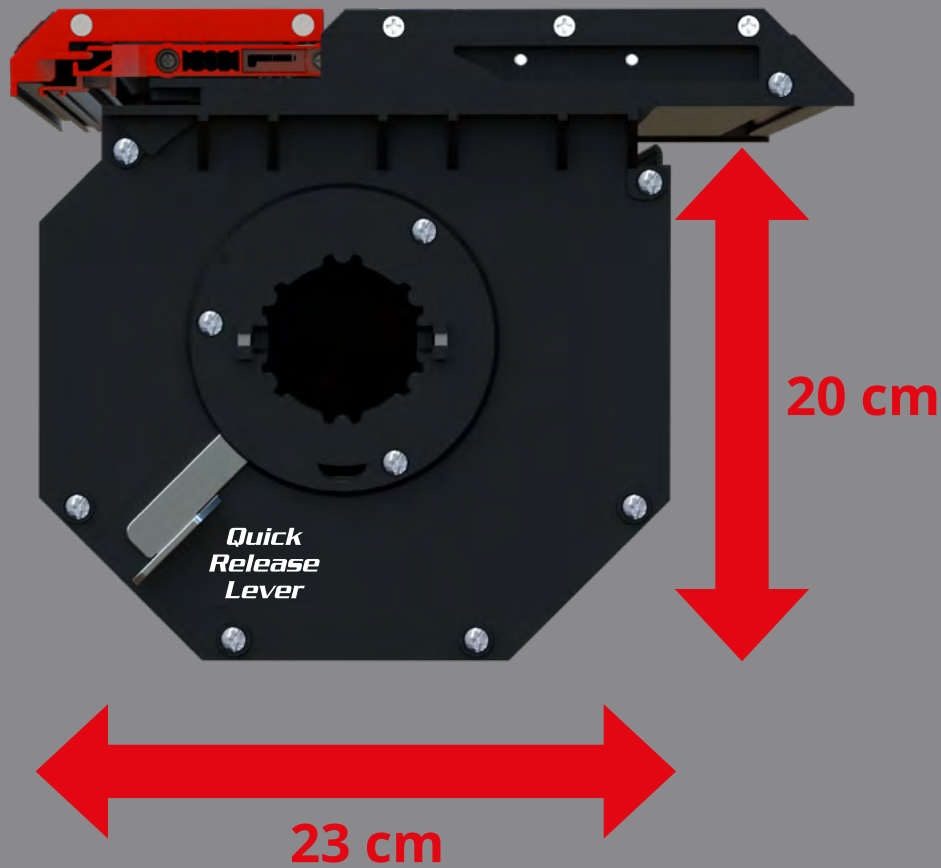

A beautiful and practical red LED light bar, that can be used as a beam light, brake light, and in case of E-Kit as an obstacle warning flash alert or even as a hazard light.

### **White LED interior light bar**

A moving full-length white led light bar located inside the rear slat with our unique spot-and-focus function to focus the light on any area or item inside the trunk, eliminating any dark spots in the truck bed.

*Our specially designed rear slat now goes inside the canister area.*

*An innovative design that offers the advantage of maximizing load net capacity both in length & height.*

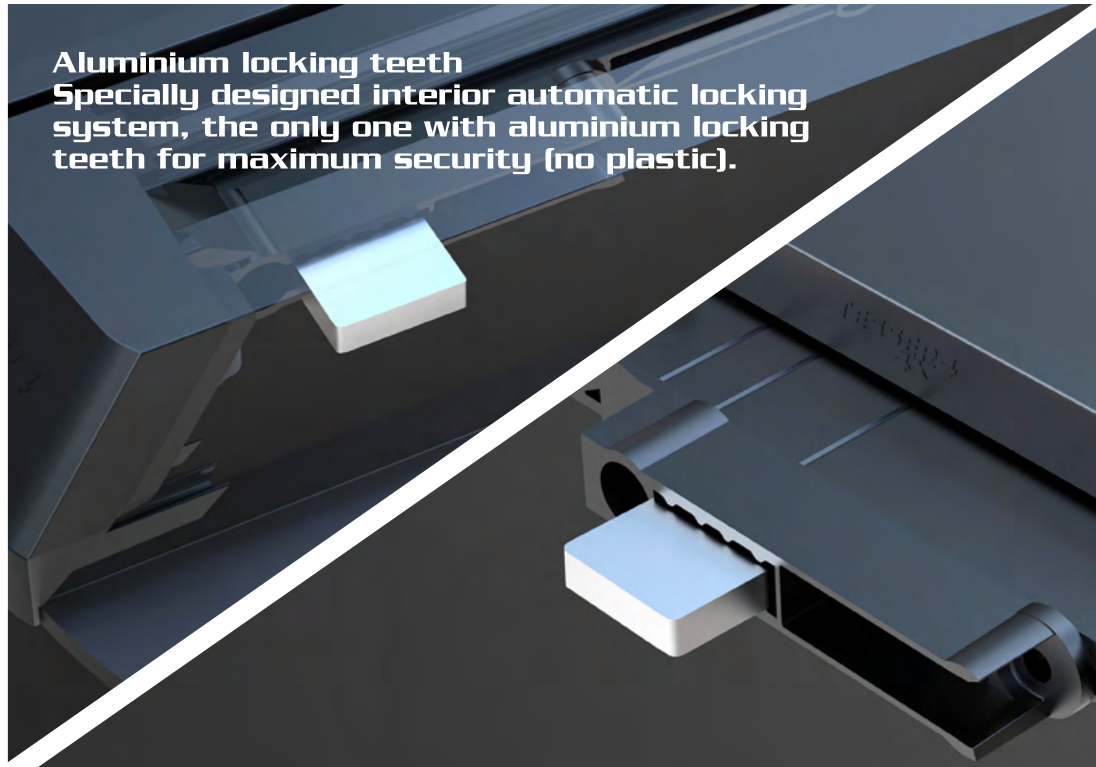

**KNIFE PROOF**  
Specially designed "Knife proof" slats provide 100% security for the load.

Interior Locking system for preventing unauthorised access.

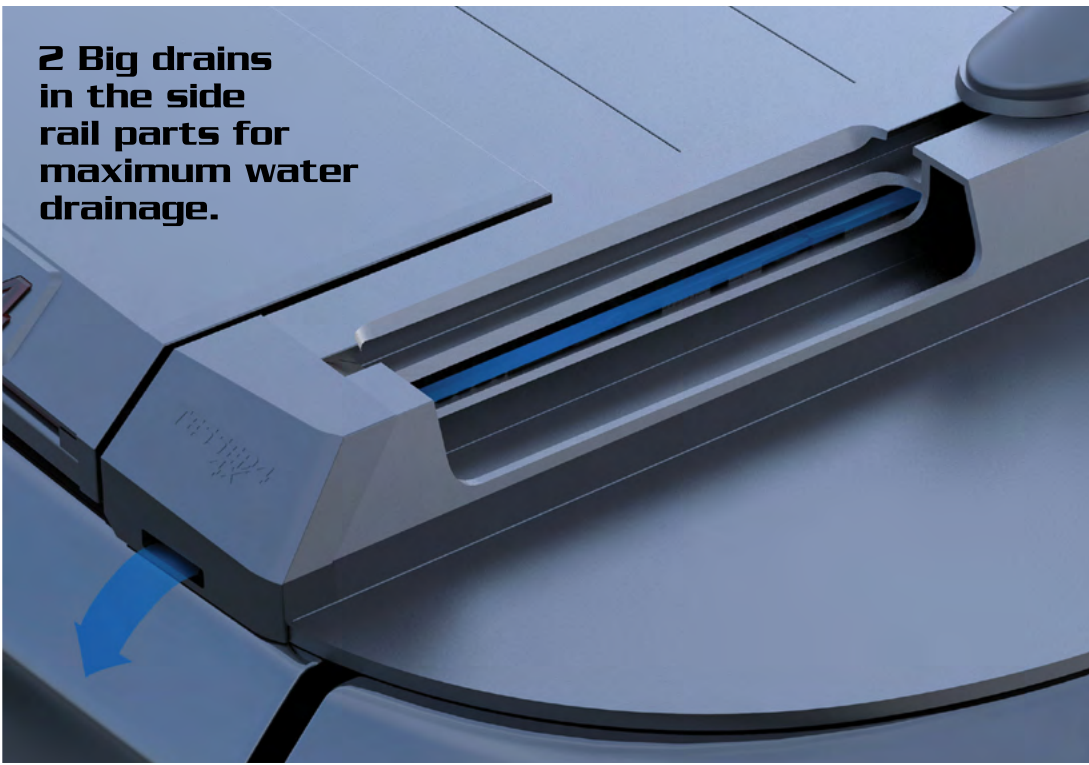

**Aluminium locking teeth**  
Specially designed interior automatic locking system, the only one with aluminium locking teeth for maximum security (no plastic).

**WATER PROTECTION:**  
2 main oversize  
drainage systems for  
fast water drainage.

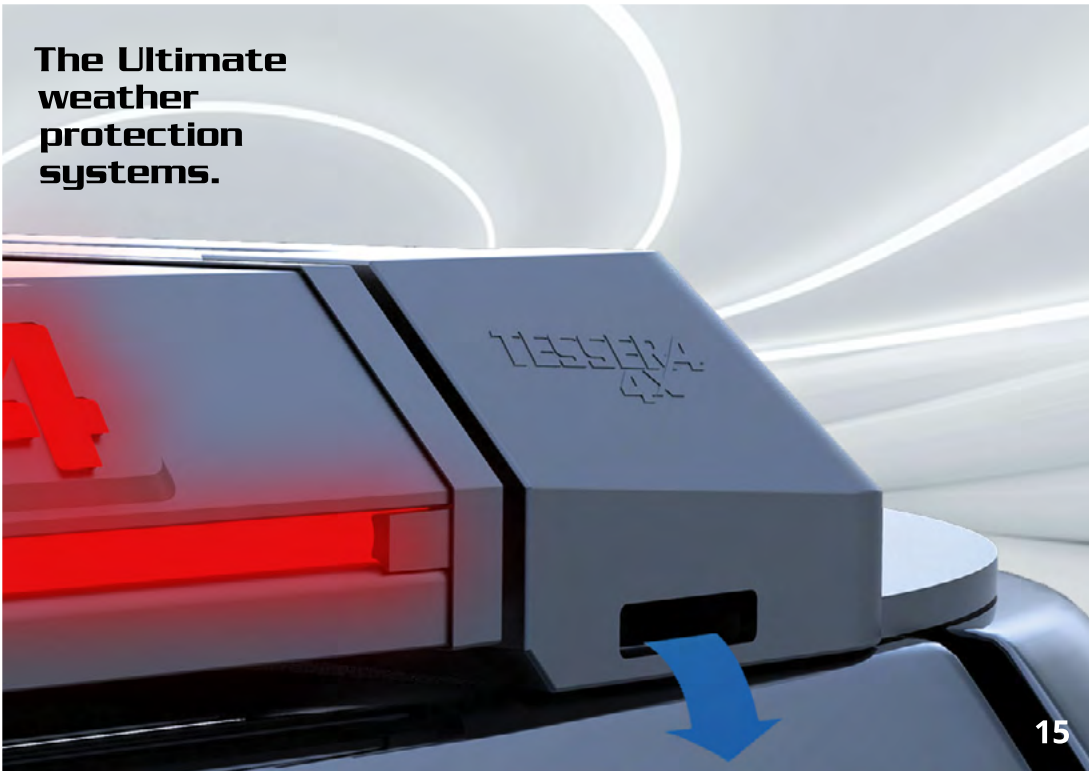

**2 overflowing systems**  
in the canister body.

**2 Big drains**  
in the side  
rail parts for  
maximum water  
drainage.

**ANTI-LEAF SYSTEM:**  
The only roll top cover  
on the global market with  
a specially designed anti-  
obstruction system (anti-leaf  
system), to protect the water  
drains of the canister from  
leaves and small obstructing  
objects.

**The Ultimate**  
weather  
protection  
systems.

Why Tessera Roll+? Top Benefits	Wholesalers	Wholesalers / End customers	Competition
<ul style="list-style-type: none"> <li>● <b>Modular Design 3 in 1</b> By ordering just 1 product code per model, Tessera Roll+ could be transformed to 3 different product codes. This means: <ul style="list-style-type: none"> <li>✓ No need of three times more space to warehouse</li> <li>✓ Three times less shipping costs</li> <li>✓ Lower risk for remaining stock (1 product vs 3)</li> <li>✓ Easier order forecast</li> <li>✓ Easy transformation with s-kit or e-kit with no use of tools (Quick Release Lever) or special knowledge</li> <li>✓ Gives the benefit to the end customer to upgrade his Tessera Roll+ at any time</li> </ul> </li> </ul>	✓	✓	×
<ul style="list-style-type: none"> <li>● <b>Smart AI Control Board</b> The only roll top cover in the global market with Artificial Intelligence board. This means: <ul style="list-style-type: none"> <li>✓ <b>Auto calibration of motor</b> (no need of a special procedure in case of first fitting, replacement of motor and in case in low temperatures)</li> <li>✓ <b>Maintenance alerts</b> The most common claims for all roll top covers around the world are for maintenance. For the end users is not easy to remember to follow the proper care and usage instructions and as a result they identify or realise the problems too late. As a consequence they will have to be charged for additional costs of the damaged spare parts or they won't have the proper functionality to their roll tops. Now Tessera Roll+ users have the advantage to receive pop up maintenance alerts directly to their mobile as they stay connected with their Tessera Roll+ all the time. So they will be notified for the most important and common issues like: <ul style="list-style-type: none"> <li>a) <b>Canister's cleaning</b> In case of blocked water inside the canister's area (it prevents problems to the whole structure or in cases with spring/motor)</li> <li>b) <b>Side rails parts cleaning &amp; lubricating</b> It calculates the time that the roll needs to open and close and after 10 confirmations it notifies you that the standard period is exceeded</li> <li>c) <b>Motor failure</b></li> </ul> </li> <li>✓ <b>Share event history</b> Tessera Roll+ users can view and share the event history and functionality of their roll. This means the best after sales care service that the final users could imagine</li> <li>✓ <b>4 MODES of operation</b> <ul style="list-style-type: none"> <li>a) <b>Specially designed remote controls</b></li> <li>b) <b>Mobile app +</b></li> <li>c) <b>Voice Commands</b></li> <li>d) <b>The unique "ONE Touch" function.</b> This means that the rear slat functions as huge aluminium button (there are not physical buttons to the side rails like in competition where are not working in low temperatures and are easy to be damaged as they are exposed to weather conditions and in case of stealing)</li> </ul> </li> </ul> </li> <li>● <b>Electricity to rolling part</b> Tessera4x4 is the only company in the world that managed to transform electricity to the rolling part and as a result:</li> </ul>	✓	✓	×
<ul style="list-style-type: none"> <li>● <b>Electricity to rolling part</b> Tessera4x4 is the only company in the world that managed to transform electricity to the rolling part and as a result:</li> </ul>	✓	✓	×

<b>Why Tessera Roll+? Top Benefits</b>	<b>Wholesalers</b>	<b>Wholesalers / End customers</b>	<b>Competition</b>
a) <b>To put a beautiful and practical red LED light bar</b> , that can be used as a beam light, brake light, and in case of E-Kit as an obstacle warning flash alert or even as a hazard light	✓	✓	✗
b) <b>To have a moving full-length white led light bar</b> located inside the rear slat with our unique spot-and-focus function to focus the light on any area or item inside the trunk, eliminating any dark spots in the truck bed	✓	✓	✗
c) <b>To put physicals sensors</b> into the end slat as a result to function as physical main control button and as an obstacle sensor	✓	✓	✗
● <b>Obstacle physical sensors</b> Since physical sensors are embedded to the end slat, Tessera Roll+ senses directly (in real time) the obstacle with no use of motor current. All the competition uses the motor current to sense obstacles which means that they are not 100% secure especially in children's cases. Also, by using motor current then the motor will be damaged quicker	✓	✓	✗
● <b>Heavy-duty shaft</b> Located inside canister's area. Within shaft could be located the spring (s-Kit) or electric motor (e-Kit), to be sealed and protected. As a result, we take no extra space of the trunk area to put motor (in comparison with the competition located in a separate side box outside the canister or located in 2nd shaft with bigger canister) or unprotected to the trunk bed	✓	✓	✗
● <b>Innovative design &amp; Compact size</b> Rear slat goes inside to the canister's area in combination of the smallest canister's dimensions (20cm x 23cm) (Space cab / Single cab / American models 26cm x 30cm (HxW)), offers the advantage of maximizing load net capacity both in length and height. In comparison with the competition that the end slat exceeds from the canister area	✓	✓	✗
● <b>Mobile App Configurations</b> Experience a whole new environment of configurations	✓	✓	✗
a) <b>Lights adjustments like:</b> on/off, brightness of red/white lights, timer of lights, etc.	✓	✓	✗
b) <b>Easy pairing of new remote controls</b> in case of lost remote controls	✓	✓	✗
c) <b>Many security settings</b> (like left opened Reminder, Double-Click function, etc.,)	✓	✓	✗
d) <b>Monitoring your Tessera Roll+ operation circles</b> , lights and share events	✓	✓	✗
e) <b>Online installation guides, videos</b> , brochures and closest dealers support	✓	✓	✗
● <b>The one and only Anti-Leaf System (ALS)</b> Tessera Roll+ is the only roll top cover in the global market with a specially made obstruction system (anti-leaf system), to protect the water drains of canister from leaves and small trash	✓	✓	✗
● <b>Side rail parts (5mm thickness)</b> Specially made (100% handmade) side rails with 5mm thickness, which follows 100% the shape and the design of the trunk's rail parts (in length and width). This offers the following benefits:	✓	✓	✗
a) <b>Better insulation</b> from any weather conditions	✓	✓	✗
b) <b>Reinforce</b> the vehicle's rail parts	✓	✓	✗
c) <b>Free surface to drill</b> in order to install all types of roll bars, side handrails and loading bars (in cases of heavy usage)	✓	✓	✗
● <b>Aluminium Locking Teeth (ALT)</b> The only roll top cover with "AUTOMATIC ALUMINIUM" locking teeth for maximum security (no plastic) of the load	✓	✓	✗

Summary Features List (per version of Tessera Roll+ series)	Basic Version	Basic version + S-Kit	Basic version + E-Kit

## Tessera Roll+ series:

Introducing Tessera Roll+: Your Pickup's Ultimate Upgrade.

For the first time ever, **Tessera Roll+** sets a new standard as the only roll top cover worldwide to incorporate Artificial Intelligence, revolutionizing convenience, maintenance, security, and customization. With 8 patents and meticulous Greek craftsmanship, each **Tessera Roll+** boasts unmatched quality and finish.

- **Upgrade from manual to spring-assisted or AI electrical operation**, or even downgrade at your convenience, making it budget-friendly for retail customers and efficient for wholesalers.
- **Harness the power of AI for seamless operation**, proactive maintenance notifications, and four modes of operation, including **key FOB remote, one-touch rear slat, Tessera Roll+ App, or voice commands**.
- **Protect your loved ones with proximity sensors** and enhance safety and style with a versatile red LED light bar.
- **Crafted from nearly 50-60kg of aluminum, Tessera Roll+** withstands extreme conditions with oversized drains, anti-leaf system, water-resistant design, & knife-proof slats.
- **Elevate your pickup truck with Tessera Roll+** – the toughest, most feature-rich roll top cover on the market, delivering functionality and style in one sleek package.

TESS 14011 ROLL	Volkswagen Amarok 2023+	Life-Style
